

### Why do I need GoodRx?

Prescription drug prices are not regulated. The cost of a prescription may differ by more than \$100 between pharmacies across the street from each other!

Insurance isn't helping like it used to. In the past 10 years, insurance companies started passing 25-80% more of the cost of drugs onto patients.

### How can GoodRx help me?

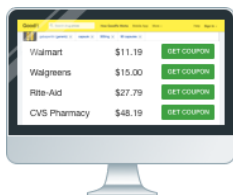

GoodRx gathers current prices and discounts to help you find the lowest cost pharmacy for your prescriptions. The average GoodRx customer saves \$355 a year on their prescriptions.

GoodRx is 100% free. No personal information required.

### How do I find discounts for my drug?

It's easy. Just go to the home page, [www.goodrx.com](http://www.goodrx.com), type in your drug's name in the search field and click the "Find the Lowest Price" button.

Many insurance plans have high deductibles or limited formularies that don't cover the drugs you need.

GoodRx may be able to find you a lower price than your insurance co pay. Hundreds of generic medications are available for \$4 or even free without insurance.
