Description	MDLIVE allows users to talk to a therapist or psychiatrist via video only (for behavioral services). These providers can provide therapy, diagnose, treat and prescribe medications for many common mental health conditions during non-emergency situations. Users do not gain direct access to a provider; they need to schedule a day/time for their appointment.	Meru Health is an app-based treatment program for depression, burnout and anxiety that combines technology, evidence-based therapy and daily support from licensed clinicians to help people improve their mental health.	Rula, formerly Path, matches you with a high-quality licensed therapist who's right for you based on what you're looking for (e.g., gender, race, specialty). Video appointment availability includes evening and weekend appointments. Sessions are available for individuals, couples and families.	SonderMind is an online virtual and in-person therapy service that matches licensed mental health practitioners with patients based on their unique needs.	The Talkspace app provides virtual access to licensed therapists via live video and private texting, plus psychiatrist services and additional resources.
